#### CONDITIONS OF SALE.

This is a **bona-fide** public sale, for **prompt cash settlement**, and irresponsible persons who are not sure whether they can pay for what they want, or others who wish to "return anything not wanted within 30 days" are asked to **not bid**. The cataloguer has taken special pains to describe each lot accurately, and he reserves the **sole right** to decide upon any claims. **These are the only conditions** under which bids will be received.

Coins and medals are sold at **so much per PIECE**, and no lot will be separated. The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 25 cents will be accepted. You can bid anything up to 50c., after that the bid must be 55c., or 60c. Such offers as 51c., \$1.01, etc., are unavailable. If there are 5 pieces in a lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

The coins, etc., in each lot are different unless otherwise described.

**Be sure you bid on the lot you wish to buy.**

All coins, etc., are genuine unless otherwise described.

My charge for executing bids will be 5 per cent. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft, as the usual exchange fee will be deducted from checks.

Catalogue of this sale **WITH ONE PLATE**, 75 cents.

We will price your catalogue for \$1.00, cash to be sent in advance.

## THE CONFEDERATE HALF-DOLLAR.

552 1861 Half Dollar. Confederate Shield with Liberty cap above, in wreath of sugar and cotton branches; legend, CONFEDERATE STATES OF AMERICA; Rev. Goddess of Liberty seated to right in circle of thirteen stars, in exergue 1861. Silver proof, **unique**, and certainly the most interesting piece ever coined in America.

The condition of this piece is that of a superb proof, slightly tarnished. This tarnish can undoubtedly be removed, but we let the purchaser attend to that. It is the only specimen of the four coins originally struck now known to be in existence, and diligent inquiry ever since 1879 has failed to disclose the whereabouts of any of the other three coins stated to have been struck. The piece is a perfect specimen of a coin, the design on each side perfectly centered, and the reading absolutely perfect. In weight it bears out the supposition that it was struck on a planchet for a United States half dollar, as it weighs a trifle over 192 grains, and 192 grains was the authorized weight for a United States half dollar of 1861. This is the first time this coin has been offered for sale since 1882, and has been in the possession of Mr. J. W. Scott, of this city, ever since. This coin is **GUARANTEED TO BE ONE OF THE FOUR ORIGINAL CONFEDERATE STATES OF AMERICA HALF DOLLARS, AND THE GUARANTEE HOLDS INDEFINITELY.** This piece is especially remarkable as being the **ONLY OFFICIAL COIN OF THE GREAT LOST CAUSE**, and for this reason it possesses not only a numismatic, but a national interest.

**This piece is a genuine issue on the part of the Confederate Government.** Its history is as follows: In February, 1861, the New Orleans mint fell into the hands of the Confederates. Their government, then in session at Montgomery, ordered the preparation of a die for silver coin. In April, Mr. Memminger, Secretary of the Treasury, called for designs for a Half Dollar. Out of several submitted to him, he selected the one we exhibit, and directed Mr. A. H. M. Peterson, who is still living in New Orleans, to prepare the dies. This gentleman did so, aided by Mr.

Conrad Schmidt, the foreman of the coining room, and from these dies four specimen pieces were struck. Of these four coins, one was sent to the Government; one to Professor Riddell, of the University of Louisiana; one to Dr. E. Aimes, of New Orleans; and one was retained by B. F. Taylor, M. D., the Chief Coiner of the C. S. A.

It was much easier for the Confederate Government, however, to prepare the dies for issuing coins than to find the bullion for the coins themselves, and so as this latter could not be obtained, the Confederate Secretary ordered, on the 30th April, 1861, that the operations cease and the mint be closed. The die thus rendered useless and practically thrown aside, was taken up by Mr. Taylor, by whom it has been cherished as a memento.

Of the other three coins, one was in the possession of Mr. Jefferson Davis at the time of his capture, and was taken from him with other valuables by the officers securing him. It has not since been heard of. No trace of the other two coins can be obtained from the day they were presented to the gentlemen above named to the present day. See Plate.
